Representation Letter

The entities that are required to be included in the combined consolidated financial statements of Jarllytec Co., Ltd. as of and for the year ended December 31, 2023 under the Criteria Governing the Preparation of Affiliation Reports, Consolidated Business Reports, and Consolidated Financial Statements of Affiliated Enterprises are the same as those included in the consolidated financial statements prepared in conformity with International Financial Reporting Standards No. 10 by the Financial Supervisory Commission, "Consolidated Financial Statements." In addition, the information required to be disclosed in the consolidated financial statements is included in the consolidated financial statements. Consequently, Jarllytec Co., Ltd. and Subsidiaries do not prepare a separate set of consolidated financial statements.

Company name: Jarllytec Co., Ltd.
Chairman: Chang, Tai-Yuan
Date: March 8, 2024

Independent Auditors' Report

To the Board of Directors of Jarllytec Co., Ltd.:

Opinion

We have audited the consolidated financial statements of Jarllytec Co., Ltd. and its subsidiaries ("the Group"), which comprise the consolidated balance sheets as of December 31, 2023 and 2022 the consolidated statements of comprehensive income, changes in equity and cash flows for the years then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as of December 31, 2023 and 2022, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Financial Reporting Standards ("IFRSs"), International Accounting Standards ("IASs"), Interpretations developed by the International Financial Reporting Interpretations Committee ("IFRIC") or the former Standing Interpretations Committee ("SIC") endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China.

Basis for Opinion

We conducted our audits in accordance with the Regulations Governing Financial Statement Audit and Attestation Engagements of Certified Public Accountants and auditing standards generally accepted in the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with The Norm of Professional Ethics for Certified Public Accountant of the Republic of China and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements for the year ended December 31, 2023These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

The key audit matters we judge that shall be communicated in the audit report are as follows:

1. Revenue recognition

   Please refer to Note 4(m) “Revenue recognition”

   Description of key audit matter:

   The major business of the Group is the development and manufacturing of various hinges which applied in computer, communication and consumer electronics, etc. The Operating Revenue is the main indicator for the investor to evaluate the financial and business performance of the Group. Therefore, it has been identified as a key audit matter.

   How the matter was addressed in our audit:

   Our principal audit procedures included:

   (1) Understanding the design and implementation of internal controls over revenue recognition and verifying the compliance of accounting policy.

   (2) Testing the manual control of sales and collection cycle.

   (3) Analyzing the changes in sales revenue from top ten clients and comparing them with those of the same period in the previous year to confirm whether or not there are significant exceptions or irregular transactions exist.

   (4) Examining the vouchers to determine the appropriate cut offs for revenue recognition within selected periods before and after the balance sheet date to evaluate whether the revenue was recorded in the appropriate period.

2. Impairment evaluation of accounts receivable

   Please refer to Note 4(g)(i)(1) “Financial assets measured at amortized cost”; Note 5(a) Significant accounting assumptions and judgments, and major sources of estimation uncertainty, and Note 6(c) Notes and accounts receivables.

   Description of key audit matter:

   The Group measured its accounts receivable by the recoverable amounts due to the provision of bad debt allowance that is subject to the management’s judgement. Therefore, it has been identified as a key audit matter.

   How the matter was addressed in our audit:

   Our principal audit procedures included:

   (1) Assessing the rationality of the provision policy and verifying the compliance of provision policy for accounts receivable allowance.

   (2) Examining the aging analysis table and checking the amount of receivables received after the balance date, as well as discussing with the management to assess the whether or not the provision is reasonable.

   (3) Evaluating the adequacy of the Group’s disclosure for bad debt allowance.

3. Inventory valuation

   Please refer to Note 4(h) “Inventories”; Note 5(b) “Significant accounting assumptions and judgments, and major sources of estimation uncertainty”, and Note 6(e) “Inventories”.

   Description of key audit matter:

   Inventories are measured at the lower of cost and net realizable value in the financial statements. However, with the rapid development of the consumer market and the volatility of sales, that may result in the cost of inventory and may exceed its net realizable value. Therefore, it has been identified as a key audit matter.

   How the matter was addressed in our audit:

   Our principal audit procedures included:

   (1) Examining the inventory aging report and analyzing the trends of inventory aging.

   (2) Evaluating the rationality of the provision policy and verifying the compliance of provision policy for inventory valuation.

   (3) Assessing the adequacy of the Group’s disclosure for inventories.

Other Matter

Jarllytec Co., Ltd. has prepared its parent-company-only financial statements as of and for the years ended December 31, 2023 and 2022, on which we have issued an unmodified opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and with the IFRSs, IASs, IFRC, SIC endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance (including members of the Audit Committee) are responsible for overseeing the Group’s financial reporting process.

Auditors’ Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors’ report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the auditing standards generally accepted in the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with auditing standards generally accepted in the Republic of China, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.

5. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

6. Obtain sufficient and appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements for the year ended December 31, 2023 and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partners on the audit resulting in this independent auditors' report are Hsu, Ming-Fang and Zhuang, Jun-Wei.

Notes to Readers

The accompanying consolidated financial statements are intended only to present the consolidated financial position, financial performance and cash flows in accordance with the accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to audit such consolidated financial statements are those generally accepted and applied in the Republic of China.

For the convenience of readers, the independent auditors' report and the accompanying consolidated financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. If there is any conflict between the English version and the original Chinese version or any difference in the interpretation of the two versions, the Chinese-language independent auditors' report and consolidated financial statements shall prevail.

(English Translation of Consolidated Financial Statements Originally Issued in Chinese)

JARLLYTEC CO., LTD. AND SUBSIDIARIES

Notes to the Consolidated Financial Statements

For the years ended December 31, 2023 and 2022

(Expressed in Thousands of New Taiwan Dollars, Unless Otherwise Specified)

(1) Company history

JARLLYTEC CO., LTD. (the "Company") was legally established with the approval of the Ministry of Economic Affairs (R.O.C.) on July 7, 2004, with registered address at No.13, Wugong 5th Rd., Sin Jhuang Dist., New Taipei City, Taiwan (R.O.C.). The Company and its subsidiaries (the "Group") has been actively developing, designing, production, assembly, inspection, manufacturing and sell stamping parts, hinges and MIM, which are widely applied in NB, LCD monitor, LCD TV, 3C-related products.

(2) Approval date and procedures of the consolidated financial statements:

These consolidated financial statements were authorized for issue by the Board of Directors on March 8, 2024.

(3) New standards, amendments and interpretations adopted:

(a) The impact of the International Financial Reporting Standards ("IFRSs") endorsed by the Financial Supervisory Commission, R.O.C. ("FSC") which have already been adopted.

The Group has initially adopted the following new amendments, which do not have a significant impact on its consolidated financial statements, from January 1, 2023.

- Amendments to IAS 1 "Disclosure of Accounting Policies"
- Amendments to IAS 8 "Definition of Accounting Estimates"
- Amendments to IAS 12 "Deferred Tax related to Assets and Liabilities arising from a Single Transaction"

The Group has initially adopted the following new amendments, which do not have a significant impact on its consolidated financial statements, from May 23, 2023.

- Amendments to IAS 12 "International Tax Reform — Pillar Two Model Rules"

(b) The impact of IFRS issued by the FSC but not yet effective

The Group assesses that the adoption of the following new amendments, effective for annual period beginning on January 1, 2024, would not have a significant impact on its consolidated financial statements.

- Amendments to IAS 1 "Classification of Liabilities as Current or Non-current"
- Amendments to IAS 1 "Non-current Liabilities with Covenants"
- Amendments to IAS 7 and IFRS 7 "Supplier Finance Arrangements"
- Amendments to IFRS 16 "Lease Liability in Sale and Leaseback"

(Continued)

(c) The impact of IFRS issued by IASB but not yet endorsed by the FSC

The Group does not expect the following other new and amended standards, which have yet to be endorsed by the FSC, to have a significant impact on its consolidated financial statements.

- Amendments to IFRS 10 and IAS 28 "Sale or Contribution of Assets Between an Investor and Its Associate or Joint Venture"
- IFRS 17 "Insurance Contracts" and amendments to IFRS 17 "Insurance Contracts"
- Amendments to IAS 21 "Lack of Exchangeability"

(4) Summary of significant accounting policies:

The significant accounting policies presented in the consolidated financial statements are summarized below. Except for those specifically indicated, the following accounting policies were applied consistently throughout the periods presented in the financial statements.

(a) Statement of compliance

These consolidated financial statements have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers (hereinafter referred to as "the Regulations") and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, ands SIC Interpretations endorsed and issued into effect by the Financial Supervisory Commission, R.O.C.

(b) Basis of preparation

(i) Basis of measurement

Except for the following significant accounts, the consolidated financial statements have been prepared on a historical cost basis:

1) Financial instruments at fair value through profit or loss are measured at fair value;

2) Financial assets at fair value through other comprehensive income are measured at fair value; and

3) The defined benefit liabilities (assets) are measured at fair value of the plan assets less the present value of the defined benefit obligation, limited as explained in note4(o).

(ii) Functional and presentation currency

The functional currency of each entity of the Group is determined based on the primary economic environment in which the entity operates. The consolidated financial statements are presented in New Taiwan Dollars, which is the Company's functional currency. All financial information presented in New Taiwan Dollars has been rounded to the nearest thousand.

(c) Basis of consolidation

(i) Principles of preparation of the consolidated financial statements

The consolidated financial statements comprise the Company and subsidiaries. Subsidiaries are entities controlled by the Group. The Group 'controls' an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.

The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases. Intragroup balances and transactions, and any unrealized income and expenses arising from Intragroup transactions are eliminated in preparing the consolidated financial statements. The Group attributes the profit or loss and each component of other comprehensive income to the owners of the parent and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance.

The Group prepares consolidated financial statements using uniform accounting policies for like transactions and other events in similar circumstances.

Changes in the Group's ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received will be recognized directly in equity, and the Group will attribute it to the owners of the parent.

(ii) List of subsidiaries in the consolidated financial statements

The consolidated entities were as follows:

Name of Investor	Name of Subsidiary	Principal Activities	Percentage of Ownership (%) 2023.12.31	Percentage of Ownership (%) 2022.12.31	Note
The company	Great Hinge Trading Ltd. (Great Hinge)	Investments	100%	100%	Note 1
The company	Smart Hinge Holdings Ltd. (Smart Hinge)	Investments	100%	100%	-
The company	Jarson Precision Technology Co., Ltd. (Jarson Precision)	Powder metallurgy and other metal products manufacturing and trading business	100%	100%	Note 1、Note 3
The company	Jarwin Investment Co., Ltd. (Jarwin Investment)	Investments	100%	100%	Note 1
The company	Jarllytec Singapore Pte. Ltd. (Jarllytec Singapore)	Computer design and service	100%	100%	Note 1
Great Hinge	Jarllytec (Vietnam) Co., Ltd. (Jarllytec Vietnam)	Production and sales business of precision hinges	100%	100%	Note 1
Smart Hinge	Royal Jarlly Holding Ltd. (Royal Jarlly)	Investments	100%	100%	-
Royal Jarlly	Jarlly Technology (Shanghai) Co., Ltd. (Shanghai Jarlly)	Component equipment for the production and sale of materials business	58.82%	58.82%	-
Royal Jarlly	Fu Qing Jarlly Electronics Co., Ltd.	Production and sales business of precision	100%	100%	Note 1

(Continued)

Name of Investor	Name of Subsidiary	Principal Activities	Percentage of Ownership (%) 2023.12.31	2022.12.31	Note
	(Fu Qing Jarlly)	hinges			
Royal Jarlly	Dong Guan Jarlly Electronics Co., Ltd. (Dong Guan Jarlly)	Production and sales business of precision hinges	100%	100%	Note 1

Royal Jarlly	Xiamen Jarlly Electronics Co., Ltd. (Xiamen Jarlly)	Production and sales business of precision hinges	100%	100%	Note 1
Royal Jarlly	Jarlly Technology (Chongqing) Co., Ltd. (Chongqing Jarlly)	Production and sales business of precision hinges	100%	100%	Note 1
Royal Jarlly	Jarllytec (Thailand) Co., Ltd. (Jarllytec Thailand)	Production and sales business of precision hinges	100%	100%	Note 1
Royal Jarlly	Zhejiang Jarlly Precision Technology Co., Ltd. (Zhejiang Jarlly)	Production and sales business of precision hinges	100%	-%	Note 1、Note 2、Note 4
Fu Qing Jarlly	Shanghai Jarlly	Component equipment for the production and sale of materials business	41.18%	41.18%	-

Note 1: Insignificant subsidiary.

Note 2: The Company indirectly invested in Royal Jarlly in March, 2023 through the Smart Hinge, which the Company holds 100% of ownership, and indirectly established Zhejiang Jarlly Precision Technology Co., Ltd. through Royal Jarlly, which is included in the consolidated financial statements since March, 2023.

Note 3: The Company has merged Jarson Precision on January 1, 2024. After the merger, the Company is the surviving company, and Jarson Precision is the dissolved company. Please refer to Note 11 for details.

Note 4: Due to the adjustment of investment structure, Jarlly Technology (Shanghai) Co., Ltd. acquired 100% of the shares of Zhejiang Jarlly Precision Technology Co., Ltd. from Royal Jarlly Holding Ltd. The based date is February 1, 2024. Please refer to Note 11 for details.

(iii) Subsidiaries excluded from the consolidated financial statements: None.

(d) Foreign currencies

(i) Foreign currency transactions

Transactions in foreign currencies are translated into the respective functional currencies of Group entities at the exchange rates at the dates of the transactions. At the end of each subsequent reporting period, monetary items denominated in foreign currencies are translated into the functional currencies using the exchange rate at that date. Non-monetary items

(Continued)

denominated in foreign currencies that are measured at fair value are translated into the functional currencies using the exchange rate at the date that the fair value was determined. Non-monetary items denominated in foreign currencies that are measured based on historical cost are translated using the exchange rate at the date of the transaction.

Exchange differences are generally recognized in profit or loss, except for those differences relating to the following, which are recognized in other comprehensive income:

1) an investment in equity securities designated as at fair value through other comprehensive income;

2) a financial liability designated as a hedge of the net investment in a foreign operation to the extent that the hedge is effective; or

3) qualifying cash flow hedges to the extent that the hedges are effective.

(ii) Foreign operations

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on acquisition, are translated into the New Taiwan Dollars at the exchange rates at the reporting date. The income and expenses of foreign operations are translated into the New Taiwan Dollars at the average exchange rate. Exchange differences are recognized in other comprehensive income.

When a foreign operation is disposed of such that control, significant influence, or joint control is lost, the cumulative amount in the translation reserve related to that foreign operation is reclassified to profit or loss as part of the gain or loss on disposal. When the Group disposes only a part of its interest in a subsidiary that includes a foreign operation while retaining control, the relevant proportion of the cumulative amount is reattributed to non-controlling interests. When the Group disposes only a part of its investment in an associate or joint venture that includes a foreign operation while retaining significant influence or joint control, the relevant proportion of the cumulative amount is reclassified to profit or loss.

When the settlement of a monetary receivable from or payable to a foreign operation is neither planned nor likely to occur in the foreseeable future, Exchange differences arising from such a monetary item that are considered to form part of the net investment in the foreign operation are recognized in other comprehensive income.

(e) Classification of current and non-current assets and liabilities

An asset is classified as current under one of the following criteria, and all other assets are classified as non-current.

(i) It is expected to be realized, or intended to be sold or consumed, in the normal operating cycle;

(ii) It is held primarily for the purpose of trading;

(iii) It is expected to be realized within twelve months after the reporting period; or

(iv) The asset is cash or cash equivalent unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

A liability is classified as current under one of the following criteria, and all other liabilities are classified as non-current.

(Continued)

An entity shall classify a liability as current when:

(i) It is expected to be settled in the normal operating cycle;

(ii) It is held primarily for the purpose of trading;

(iii) It is due to be settled within twelve months after the reporting period; or

(iv) The Group does not have any unconditional right to defer settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by issuing equity instruments that do not affect its classification.

(f) Cash and cash equivalents

Cash comprises cash on hand and demand deposits. Cash equivalents are short term, highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value. Time deposits which meet the above definition and are held for the purpose of meeting short term cash commitments rather than for investment or other purposes should be recognized as cash equivalents.

(g) Financial instruments

(i) Financial assets

All regular way purchases or sales of financial assets are recognized and derecognized on a trade date basis.

On initial recognition, a financial asset is classified as measured at: amortized cost; Fair value through other comprehensive income (FVOCI) – debt investment; FVOCI – equity investment; or FVTPL. Financial assets are not reclassified subsequent to their initial recognition unless the Group changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

1) Financial assets measured at amortized cost

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

- It is held within a business model whose objective is to hold assets to collect contractual cash flows; and

- Its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

These assets are subsequently measured at amortized cost, which is the amount at which the financial asset is measured at initial recognition, plus/minus, the cumulative amortization using the effective interest method, adjusted for any loss allowance. Interest income, foreign exchange gains and losses, as well as impairment, are recognized in profit or loss. Any gain or loss on derecognition is recognized in profit or loss.

2) Fair value through other comprehensive income (FVOCI)

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Group may irrevocably elect to present subsequent changes in the investment's fair value in other comprehensive income. This election is made on an instrument-by-instrument basis.

Debt investments at FVOCI are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognized in profit or loss. Other net gains and losses are recognized in other comprehensive income. On derecognition, gains and losses accumulated in other comprehensive income are reclassified to profit or loss.

Equity investments at FVOCI are subsequently measured at fair value. Dividends are recognized as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in other comprehensive income and are never reclassified to profit or loss.

Dividend income is recognized in profit or loss on the date on which the Group's right to receive payment is established.

3) Fair value through profit or loss (FVTPL)

All financial assets not classified as amortized cost or FVOCI described as above (e.g. financial assets held for trading and those that are managed and whose performance is evaluated on a fair value basis) are measured at FVTPL, including derivative financial assets. On initial recognition, the Group may irrevocably designate a financial asset, which meets the requirements to be measured at amortized cost or at FVOCI, as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognized in profit or loss.

4) Business model assessment

The company holds a portfolio of listed and over-the-counter equity securities and funds for trading purposes..

5) Impairment of financial assets

The Group recognizes loss allowances for expected credit losses (ECL) on financial assets measured at amortized cost (including cash and cash equivalents, amortized costs, notes and accounts receivables, other receivable, guarantee deposit paid and other financial assets), debt investments measured at FVOCI and contract assets.

The Group measures loss allowances at an amount equal to lifetime ECL, except for the following which are measured as 12-month ECL:

- debt securities that are determined to have low credit risk at the reporting date；and

- other debt securities and bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowance for accounts receivables and contract assets are always measured at an amount equal to lifetime ECL.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECL, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis based on the Group’s historical experience and informed credit assessment as well as forward-looking information.

The Group assumes that the credit risk on a financial asset has increased significantly if it is more than 30 days past due.

The Group considers a financial asset to be in default when the financial asset is more than 90 days past due or the debtor is unlikely to pay its credit obligations to the Group in full.

The Group considers a debt security to have low credit risk when its credit risk rating is equivalent to the globally understood definition of ‘investment grade’ which is considered to be BBB- or higher per Standard & Poor’s, Baa3 or higher per Moody’s or twA or higher per Taiwan Ratings.

ECLs are probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Group in accordance with the contract and the cash flows that the Group expects to receive). ECLs are discounted at the effective interest rate of the financial asset.

(Continued)

At each reporting date, the Group assesses whether financial assets carried at amortized cost and debt securities at FVOCI are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or being more than 90 days past due;
- the lender of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession that the lender would not otherwise consider;
- it is probable that the borrower will enter bankruptcy or other financial reorganization; or
- the disappearance of an active market for that financial assets because of financial difficulties.

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets. For debt investment at FVOCI, loss allowances are recognized in other comprehensive income instead of reducing the carrying amount of the asset.

The gross carrying amount of a financial asset is written off when the Group has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof. The Group individually makes an assessment with respect to the timing and amount of write-off based on whether there is a reasonable expectation of recovery. The Group expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Group’s procedures for recovery of amounts due. Based on its experience, the overdue amount will not be recovered after 90 days.

6) Derecognition of financial assets

The Group derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Group enters into transactions whereby it transfers assets recognized in its statement of balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognized.

Derivative financial instruments

The Group holds derivative financial instruments to hedge its foreign currency and interest rate exposures. Embedded derivatives are separated from the host contract and accounted for separately if the host contract is not a financial asset and certain criteria are met.

Derivatives are initially measured at fair value. Subsequent to initial recognition, derivatives are measured at fair value, and changes therein are generally recognized in profit or loss.

(h) Inventories

Inventories are measured at the lower of cost and net realizable value. The cost of inventories is calculated using the weighted average method, and includes expenditure incurred in acquiring the inventories, production or conversion costs, and other costs incurred in bringing them to their present location and condition. In the case of manufactured inventories and work in progress, cost includes an appropriate share of production overheads based on normal operating capacity.

Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

(i) Property, plant and equipment

(i) Recognition and measurement

Items of property, plant and equipment are measured at cost, which includes capitalized borrowing costs, less accumulated depreciation and any accumulated impairment losses.

If significant parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognized in profit or loss.

(ii) Subsequent cost

Subsequent expenditure is capitalized only if it is probable that the future economic benefits associated with the expenditure will flow to the Group.

(iii) Depreciation

Depreciation is calculated on the cost of an asset less its residual value and is recognized in profit or loss on a straight-line basis over the estimated useful lives of each component of an item of property, plant and equipment.

(Continued)

Land is not depreciated.

The estimated useful lives of property, plant and equipment for current and comparative periods are as follows:

1)	Buildings and construction	3 to 37 years
2)	Machinery and equipment	3 to 8 years
3)	Molding Equipment	3 years
4)	Asset leased to others	3 to 37 years
5)	Office and Other equipment	1 to 6 years

Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

(j) Leases

At inception of a contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

(i) As a lease

The Group recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be reliably determined, the Group’s incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise the following:

- fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee; and
- payments for purchase or termination options that are reasonably certain to be exercised.

The lease liability is measured at amortized cost using the effective interest method. It is remeasured when:

- there is a change in future lease payments arising from the change in an index or rate; or
- there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee; or
- there is a change in the lease term resulting from a change of its assessment on whether it will exercise an option to purchase the underlying asset, or
- there is a change of its assessment on whether it will exercise a purchase, extension or termination option; or
- there is any lease modification

When the lease liability is remeasured, other than lease modifications, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or in profit and loss if the carrying amount of the right-of-use asset has been reduced to zero.

When the lease liability is remeasured to reflect the partial or full termination of the lease for lease modifications that decrease the scope of the lease, the Group accounts for the remeasurement of the lease liability by decreasing the carrying amount of the right-of-use asset to reflect the partial or full termination of the lease, and recognize in profit or loss any gain or loss relating to the partial or full termination of the lease.

The Group presents right-of-use assets and lease liabilities as a separate line item respectively in the statement of financial position.

The Group has elected not to recognize right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets. The Group recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

As a practical expedient, the Group elects not to assess whether all rent concessions that meets all the following conditions are lease modifications or not:

- the rent concessions occurring as a direct consequence of the COVID-19 pandemic;
- the change in lease payments that resulted in revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease immediately preceding the change;
- any reduction in lease payments that affects only those payments originally due on, or before, June 30, 2022; and
- there is no substantive change in other terms and conditions of the lease.

In accordance with the practical expedient, the effect of the change in the lease liability is reflected in profit or loss in the period in which the event or condition that triggers the rent concession occurs.

(ii) As a lessor

When the Group acts as a lessor, it determines at lease commencement whether each lease is a finance lease or an operating lease. To classify each lease, the Group makes an overall assessment of whether the lease transfers to the lessee substantially all of the risks and rewards of ownership incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then the lease is an operating lease. As part of this assessment, the Group considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

The Group recognizes lease payments received under operating leases as income on a straight-line basis over the lease term as part of 'leases income'.

(k) Intangible assets

(i) Recognition and measurement

Expenditure on research activities is recognized in profit or loss as incurred.

Development expenditure is capitalized only if the expenditure can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable and the Group intends to, and has sufficient resources to, complete development and to use or sell the asset. Otherwise, it is recognized in profit or loss as incurred. Subsequent to initial recognition, development expenditure is measured at cost, less accumulated amortization and any accumulated impairment losses.

Other intangible assets are acquired by the Group and have finite useful lives are measured at cost less accumulated amortization and any accumulated impairment losses.

(ii) Subsequent expenditure

Subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, is recognized in profit or loss as incurred.

(iii) Amortization

Amortization is calculated over the cost of the asset, less its residual value, and is recognized in profit or loss on a straight-line basis over the estimated useful lives of intangible assets, other than goodwill, from the date that they are available for use.

Amortization methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

(l) Impairment of non-derivative financial assets

At each reporting date, the Group reviews the carrying amounts of its non-financial assets (other than inventories, contract assets, deferred tax assets and investment properties and biological assets, measured at fair value, less costs) to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGUs.

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

An impairment loss is recognized if the carrying amount of an asset or CGU exceeds its recoverable amount.

Impairment losses are recognized in profit or loss. They are allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets in the CGU on a pro rata basis.

An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

(m) Revenue recognition

Revenue from contracts with customers

(i) Sell goods

The Group manufactures various hinges which applied in 3C related products and sells them to computer manufacturers. The Group recognizes revenue when control of the products has transferred, being when the products are delivered to the customer, the customer has full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the customer's acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customer, and either the customer has accepted the products in accordance with the sales contract, the acceptance provisions have lapsed, or the Group has objective evidence that all criteria for acceptance have been satisfied.

A receivable is recognized when the goods are delivered as this is the point in time that the Group has a right to an amount of consideration that is unconditional.

(ii) Financial Components

The Company expects that the interval between the time it transfers goods or services to customers and the time customers pay for those goods or services will not exceed one year for all customer contracts. Therefore, the Company does not adjust the transaction price for the time value of money component.

(n) Government grants and government assistance

The Group recognizes an unconditional government grant related to a CDVID-19 asset in profit or loss as other operating revenue when the grant becomes receivable. Grants that compensate the Company for expenses or losses incurred are recognized in profit or loss on a systematic basis in the periods in which the expenses or losses are recognized.

(o) Employee benefits

(i) Defined contribution plans

Obligations for contributions to defined contribution plans are expensed as the related service is provided.

(ii) Defined benefit plans

The Group's net obligation in respect of defined benefit plans is calculated by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Group, the recognized asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. To calculate the present value of economic benefits, consideration is given to any applicable minimum funding requirements.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognized immediately in other comprehensive income, and accumulated in retained earnings within equity. The Group determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability (asset). Net interest expense and other expenses related to defined benefit plans are recognized in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognized immediately in profit or loss. The Group recognizes gains and losses on the settlement of a defined benefit plan when the settlement occurs.

(iii) Short-term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognized for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

(p) Income taxes

Income taxes comprise current taxes and deferred taxes. Except for expenses related to business combinations or recognized directly in equity or other comprehensive income, all current and deferred taxes are recognized in profit or loss.

Current taxes comprise the expected tax payables or receivables on the taxable profits (losses) for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax payables or receivables are the best estimate of the tax amount expected to be paid or received. It is measured using tax rates enacted or substantively enacted at the reporting date.

Deferred taxes arise due to temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and their respective tax bases. Deferred taxes are recognized except for the following:

(i) temporary differences on the initial recognition of assets and liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profits (losses) at the time of the transaction;

(ii) temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and

(iii) taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognized for the carry forward of unused tax losses, unused tax credits, and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefits will be realized; such reductions are reversed when the probability of future taxable profits improves.

Deferred taxes are measured at tax rates that are expected to be applied to temporary differences when they reserve, using tax rates enacted or substantively enacted at the reporting date.

Deferred tax assets and liabilities are offset if the following criteria are met:

(i) the Group has a legally enforceable right to set off current tax assets against current tax liabilities; and

(ii) the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on either:

1) the same taxable entity; or

2) different taxable entities which intend to settle current tax assets and liabilities on a net basis, or to realize the assets and liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

(Continued)

(q) Earnings per share

The Group discloses the Company’s basic and diluted earnings per share attributable to ordinary shareholders of the Company. Basic earnings per share is calculated as the profit attributable to ordinary shareholders of the Company divided by the weighted average number of ordinary shares outstanding. Diluted earnings per share is calculated as the profit attributable to ordinary shareholders of the Company divided by the weighted average number of ordinary shares outstanding after adjustment for the effects of all potentially dilutive ordinary shares, such as employee compensation.

(r) Operating segments

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the Group). Operating results of the operating segment are regularly reviewed by the Group’s chief operating decision maker to make decisions about resources to be allocated to the segment and to assess its performance. Each operating segment consists of standalone financial information.

(5) Significant accounting assumptions and judgments, and major sources of estimation uncertainty

In preparing these consolidated financial statements, management has made judgments, estimates, and assumptions that affect the application of the accounting policies and the reported amount of assets, liabilities, income, and expenses. Actual results may differ from these estimates.

The management continues to monitor the accounting estimates and assumptions. The management recognizes any changes in accounting estimates during the period and the impact of those changes in accounting estimates in the following period.

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the next financial year is as follows:

(a) Impairment of accounts receivable

When there is objective evidence of impairment loss, the Group takes into consideration the estimation of future cash flows. The amount of the impairment loss is measured as the difference between the asset’s carrying amount and the present value of estimated future cash flows (excluding possible future credit losses) discounted at the financial asset’s original effective interest rate. When the actual future cash flows are less than expected, a material impairment loss may arise. Please refer to note 6(c) for further description of the impairment of accounts receivable.

(b) Valuation of inventories

As inventories are stated at the lower of cost or net realizable value, the Group estimates the net realizable value of inventories for obsolescence and unmarketable items at the end of the reporting period and then writes down the cost of inventories to net realizable value. The net realizable value of the inventory is mainly determined based on assumptions as to future demand within a specific time horizon. Due to the rapid industrial transformation, there may be significant changes in the net realizable value of inventories. Please refer to note 6(e) for further description of the valuation of inventories.

(c) Measurement of defined benefit obligations

Accrued pension liabilities and resulting pension expenses under defined benefit pension plans are calculated using the Projected Unit Credit Method. Actuarial assumptions comprise the discount rate,

(Continued)

rate of employee turnover, future salary increase rate, etc. Changes in economic circumstances and market conditions will affect these assumptions and may have a material impact on the amount of the expense and the liability. Please refer to note 6(m) for further description of the actuarial assumptions and sensitivity analysis.

The Group's accounting policies include measuring financial and non-financial assets and liabilities at fair value through profit or loss.

The Group's financial instrument valuation group conducts independent verification on fair value by using data sources that are independent, reliable, and representative of exercise prices. This financial instrument valuation group also periodically adjusts valuation models, conducts back-testing, renews input data for valuation models, and makes all other necessary fair value adjustments to assure the rationality of fair value. The Group strives to use market observable inputs when measuring assets and liabilities. Different levels of the fair value hierarchy to be used in determining the fair value of financial instruments are as follows:

(a) Level 1: quoted prices (unadjusted) in active markets for identifiable assets or liabilities.

(b) Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

(c) Level 3: inputs for the assets or liability that are not based on observable market data.

(6) Explanation of significant accounts:

(a) Cash and cash equivalents

	December 31, 2023	**December 31, 2022**
Cash on hand	$ 740	965
Demand deposits and checking deposits	1,324,115	1,916,954
Time deposits	1,642,341	923,129
	$ 2,967,196	2,841,048

(b) Financial instrument

(i) Financial assets at fair value through profit or loss:

	December 31, 2023	**December 31, 2022**
Current mandatorily measured at fair value through profit or loss:		
Stocks of domestic listed companies	$ 15,386	19,116
Beneficiary certificates	-	10,039
	$ 15,386	29,155

		December 31, 2023	December 31, 2022
Non-current mandatorily measured at fair value through profit or loss:			
Private offered funds	$	254	457
Convertible bonds redemption right		-	200
	$	254	657

(ii) Financial assets at fair value through other comprehensive income:

		December 31, 2023	December 31, 2022
Equity investments at fair value through other comprehensive income-non-current			
Stocks of domestic unlisted companies	$	92,784	57,289
Stocks of unlisted companies in Mainland China		29,380	25,743
Total	$	122,164	83,032

The Group designated the investment shown above as equity securities at fair value through other comprehensive income because these equity securities represent those investments that the Group intends to hold for long-term strategic purpose, instead of for trading purpose.

(iii) Gains on trading of derivative financial instruments for the year ended December 31, 2023 amounted to $644 thousand, which were recognized under other gains and losses.

(iv) As of December 31, 2023 and 2022, the aforementioned financial assets were not pledged as collateral.

(c) Notes and accounts receivables

		December 31, 2023	December 31, 2022
Notes receivable	$	361	1,144
Accounts receivables		3,026,383	2,407,484
Less: loss allowance		(7,946)	(13,318)
	$	3,018,798	2,395,310

The Group applies the simplified approach to provide for its expected credit losses, i.e. the use of life-time expected loss provision for all receivables. To measure the expected credit losses, accounts receivables have been grouped based on shared credit risk characteristics and the days past due, as well as the incorporated forward-looking information.

The analysis of expected credit losses of the notes and accounts receivables of the Group is as follows:

	December 31, 2023			
	Carrying amounts of notes and accounts receivables		Weighted-average loss rate	Life-time expected credit loss
Current	$	2,982,528	0%~1%	2,127
1 to 30 days past due		5,560	0%~5%	235
31 to 60 days past due		24,607	0%~10%	1,604
61 to 90 days past due		1,518	0%~15%	221
Past due for more than 90 days		12,531	30%~100%	3,759
	$	3,026,744		7,946

	December 31, 2022			
	Gross carrying amount		Weighted-average loss rate	Loss allowance provision
Current	$	2,266,307	0%~1%	2,031
1 to 30 days past due		9,546	0%~5%	351
31 to 60 days past due		86,813	0%~10%	4,985
61 to 90 days past due		45,962	0%~15%	5,951
	$	2,408,628		13,318

The movement in the loss allowance for notes and accounts receivable were as follows:

	For the years ended December 31,		
	2023		2022
Balance at January 1	$	13,318	2,634
Impairment losses		-	9,956
Impairment losses reversed		(5,501)	-
Foreign exchange gains or losses		129	728
Balance at December 31	$	7,946	13,318

As of December 31, 2023 and 2022, the notes and account receivable of the Group were not pledged as collaterals.

(d) Other receivables

	December 31, 2023		December 31, 2022
Overpaid business tax returned	$	8,101	12,498
Interest receivable		3,330	3,250
Others		26,499	30,361
	$	**37,930**	**46,109**

For further credit risk information, please refers to note 6(w).

(e) Inventories

	December 31, 2023		December 31, 2022
Raw materials and supplies	$	140,366	161,186
Work in process		204,698	192,668
Finished goods		521,876	325,150
	$	**866,940**	**679,004**

(i) For the years ended December 31, 2023 and 2022, costs of inventories recognized as costs and expenses of sales amounted to $6,661,151 thousand and $5,552,819 thousand, respectively.

(ii) For the year ended December 31, 2023, as the factors resulting in the net realizable value of inventories lower than the cost are eliminated, the reversal gains on inventory valuation losses of $19,437 thousand were recognized.

(iii) For the year ended December 31, 2022, the inventory valuation losses of $42,207 thousand for writing off the costs of inventories to the net realizable value have been recognized as costs of goods sale.

(iv) As of December 31, 2023 and 2022, the inventories were not pledged as collaterals.

(f) Prepayments, other current assets and other non-current assets

Components of prepayments, other current assets, and other non-current assets were listed below:

	December 31, 2023	December 31, 2022
Prepayment for mold	$ 32,422	27,944
Other prepayments	33,138	28,080
Offset against business tax payable	35,087	18,036
Others	5,724	4,745
Total prepayments and other current assets	$ 106,371	78,805
Other deferred expenses	$ 58,974	48,657
Refundable deposits	11,282	8,945
Other financial assets - others	44,498	1,228
Others	4,199	1,361
Total other non-current assets	$ 118,953	60,191

JARLLYTEC CO., LTD. AND SUBSIDIARIES

Notes to the Consolidated Financial Statements

(g) Property, plant and equipment

The cost and accumulated depreciation and impairments of the property, plant and equipment of the Group as of and for the years ended December 31, 2023 and 2022 were as follows:

	Land	Buildings and construction	Machine and equipment	Mold equipment	Rental equipment	Other facilities	Construction in progress and testing equip	Total
Cost:								
Balance at January 1, 2023	$ 1,054,470	745,848	1,625,169	3,012	98,296	214,401	152	3,741,348

(i) Intangible assets

Changes in intangible assets are as follows:

		Software
Costs:		
Balance at January 1, 2023	$	121,057
Separate acquisition		9,427
Disposal		(21,661)
Effect of movement in exchange		(577)
Balance at December 31, 2023	**$**	**108,246**
Balance at January 1, 2022	$	113,017
Separate acquisition		8,462
Disposal		(843)
Effect of movement in exchange		421
Balance at December 31, 2022	**$**	**121,057**
Accumulated amortization:		
Balance at January 1, 2023	$	99,342
Amortization		9,429
Disposal		(21,651)
Effect of movement in exchange		(520)
Balance at December 31, 2023	**$**	**86,600**
Balance at January 1, 2022	$	91,196
Amortization		8,439
Disposal		(613)
Effect of movement in exchange		320
Balance at December 31, 2022	**$**	**99,342**
Carrying amount:		
Balance at December 31, 2023	**$**	**21,646**
Balance at January 1, 2022	**$**	**21,821**
Balance at December 31, 2022	**$**	**21,715**

As of December 31, 2023 and 2022, none of the intangible assets had been pledged as collateral.

(j) Short-term borrowings

The short-term borrowings were summarized as follows:

		December 31, 2023	December 31, 2022
Unsecured bank loans	$	210,000	-
Unused short-term credit lines		419,810	515,833
	$	**629,810**	**515,833**
Unused credit lines	**$**	**518,280**	**950,215**
Range of interest rates		**1.70%~3.00%**	**1.45%~5.15%**

(Continued)

(k) Other payables

	December 31, 2023	December 31, 2022
Payroll paables	$ 210,257	206,651
Payables for equipment	33,455	8,819
Others	913,367	898,501
	$ 1,157,079	**1,113,971**

(l) Long-term borrowings

The details were as follows:

	December 31, 2023			
	Currency	**Interest range**	**Expiration**	**Amount**
Secured bank loans	TWD	1.16%~1.70%	2024~2029	$ 126,555
Unsecured bank loans	TWD	1.10%~1.15%	2024	128,366
Less: current portion				(186,111)
Total				**$ 68,810**
Unused credit lines				**$ -**

	December 31, 2022			
	Currency	**Interest range**	**Expiration**	**Amount**
Secured bank loans	TWD	1.035%~1.575%	2024~2029	$ 215,550
Unsecured bank loans	TWD	0.975%~1.025%	2024	256,732
Less: current portion				(217,361)
Total				**$ 254,921**
Unused credit lines				**$ 500,000**

Please refer to Note 8 for details of the assets pledged as collateral for bank borrowings.

(m) Bonds payable

The details of bonds payables are as follows:

	December 31, 2023	December 31, 2022
Total amount of convertible bonds	$ 400,000	400,000
Unamortized balance of discount on bonds payable	-	(13,579)
Accumulated redemption amount	-	-
Accumulated converted amount	(400,000)	-
Bonds payable, ending balance	$ -	386,421
Embedded derivative-redemption rights (classified as non-current financial assets at fair value through profit or loss)	$ -	200
Equity component-conversion rights (classified as capital surplus)	$ -	50,911

	2023	2022
Gains (losses) on remeasurement of embedded derivative instruments at fair value	$ 389	(200)
Interest expenses	$ (3,846)	(3,867)

The Group's rights and obligations to the issuance of unsecured convertible bonds outstanding:

Item	The first issuance of domestic unsecured convertible bonds
Aggregate amount	$400,000 thousand
Issue date	April 28, 2022
Issue period	April 28, 2022 ~ April 28, 2025
Coupon rate	0%
Name of trustee	SinoPac Financial Holdings Company Limited
Terms of repayment	Except for bondholders who convert into common shares of the Company in accordance with Article 10 of these Regulations, or redeemed by the Company in advance in accordance with Article 18 of these Regulations, or the Company buys back at the business place of a securities firm and cancels it, the Company will repay the convertible bonds in cash in one lump sum according to the face value of bonds upon maturity. Payment will be made within five business days (inclusive) from the maturity date.
Terms of redemption prior to maturity	(1) From the next day after the issuance of convertible bonds three months later (July 29, 2022) to 40 days prior to maturity of the issuance period (March 19, 2025), when the closing price of the Company's common share exceeds the current conversion price by 30% (inclusive) for 30 consecutive business days, the Company may, within the next 30 business days, send a 30-day-expired "Bond Redemption Notice" to bondholders by registered mail. The Company will redeem all bonds in cash, the bonds face value as the redemption price, and notify Taipei Exchange by letter to make a public announcement. Upon exercising the redemption request, the Company shall redeem the convertible bonds in cash within five business days after the bond

Item	The first issuance of domestic unsecured convertible bonds
Terms of redemption prior to maturity	redemption base date. (A 30-day-expired “Bond Redemption Notice” under the preceding paragraph shall begin from the Company’s mail date and the date of the period expiry shall be taken as the bond redemption base date, and the aforesaid period shall not be the period of suspended conversion period prescribed under Article 9.) (Bondholders under the preceding paragraph refers to those on the bondholders roster on the fifth business day before the “Bond Redemption Notice” is sent; for bondholders who acquire the convertible bonds later due to trading or other reasons, the announcement shall prevail.) (2) From the next day after the issuance of convertible bonds three months later (July 29, 2022) to 40 days prior to maturity of the issuance period (March 19, 2025), when the outstanding balance of converted bonds is 10% lower than the original issuance amount, the Company may, at any time thereafter, send a 30-day-expired “Bond Redemption Notice” to bondholders by registered mail. The Company will redeem all bonds in cash, the bonds face value as the redemption price, and notify Taipei Exchange by letter to make a public announcement. Upon exercising the redemption request, the Company shall redeem the convertible bonds in cash within five business days after the bond redemption base date. (A 30-day-expired “Bond Redemption Notice” under the preceding paragraph shall begin from the Company’s mail date and the date of the period expiry shall be taken as the bond redemption base date, and the aforesaid period shall not be the period of suspended conversion period prescribed under Article 9.) (Bondholders under the preceding paragraph refers to those on the bondholders roster on the fifth business day before the “Bond Redemption Notice” is sent; for bondholders who acquire the convertible bonds later due to trading or other reasons, the announcement shall prevail.) (3) If the bondholder fails to reply in written to the Company's shareholder service agent before the base date prescribed on the “Bond Redemption Notice” (the effectiveness at delivery, and the postmark date will prevail for post mails), the Company shall redeem the convertible bonds at face value in cash within five business days after the bond redemption base date. (4) If the Company exercises the redemption request, the deadline for bondholders to request conversion is the second business day after the day when the over-the-counter trading of the converted bonds is terminated.
Conversion period	From the next day after the issuance of convertible bonds three months later (July 29, 2022) to the maturity date (April 28, 2025), the bondholder may at any time, through the original trading brokerage, notify Taiwan Depository & Clearing Corporation (“TDCC”) to request the Company’s shareholders service agent for conversion into common shares in accordance with Article 10, Article 11, Article 13 and Article 15 of these Regulations, except: (1) during the period in which transfer of common shares is suspended by laws; (2) from the 15th business day before share transfer is suspended for issuance of shares as stock dividends, cash dividends or cash capital increase, to the distribution base date; (3) from the capital reduction base date to the day before the beginning transaction date of reissuing; (4) from the starting date of the suspension of conversion (subscription) for face value alteration to the day before the beginning transaction date of reissuing. The starting date of the suspension of conversion (subscription) for face value alteration referred to in the preceding paragraph shall mean one business day before amendment registration to the Ministry of Economic Affairs. The Company shall announce the period of suspension of conversion four business days before the starting date.
Conversion price	NT$67

(n) Lease liabilities

	December 31, 2023	December 31, 2022
Current	$ 29,273	31,911
Non-current	$ 65,232	77,142

For the maturity analysis, please refer to Note 6(w).

The amounts recognized in profit or loss are as follows:

	For the years ended December 31	
	2023	2022
Interest on lease liabilities	$ 2,445	1,545
Expenses relating to short-term leases	$ 15,422	13,344

The amounts recognized in the statement of cash flows for the Group are as follows:

	For the years ended December 31	
	2023	2022
Total cash outflow for leases	$ 63,171	67,191

(i) Real estate leases

The Group leases buildings for its plant and office use, which typically run for a period of three years.

(ii) Other leases

The Group leases employee dormitory and transportation equipment, with contract terms of one to three years. These leases are short-term or leases of low-value items. Therefore, the Group has elected not to recognize its right-of-use assets and lease liabilities for these leases.

(o) Operating lease

A maturity analysis of lease payments, showing the undiscounted lease payments to be received after the reporting date is as follows:

	December 31, 2023	December 31, 2022
Less than one year	$ 18,825	17,327
One to two years	15,575	13,397
Two to three years	327	10,213
Three to four years	327	-
	$ 35,054	40,937

(p) Employee benefits

(i) Defined benefit plans

Reconciliation of defined benefit obligation at present value and plan asset at fair value is as follows:

	December 31, 2023	December 31, 2022
Present value of the defined benefit obligations	$ 57,746	51,619
Fair value of plan assets	(20,479)	(20,347)
Net defined benefit liabilities	**$ 37,267**	**31,272**

The Group makes defined benefit plan contributions to the pension fund account with Bank of Taiwan that provides pensions for employees upon retirement. Plans (covered by the Labor Standards Law) entitle retired employees to receive retirement benefits based on their years of service and average monthly salary for the six months prior to retirement.

1) Composition of plan assets

The Group allocates pension funds in accordance with the Regulations for Revenues, Expenditures, Safeguard and Utilization of the Labor Retirement Fund, and such funds are managed by the Bureau of Labor Funds, Ministry of Labor. With regard to the utilization of the funds, minimum earnings shall be no less than the earnings attainable from two-year time deposits with interest rates offered by local banks.

The Group's Bank of Taiwan labor pension reserve account balance amounted to $20,254 thousand as of December 31, 2023. For information on the utilization of the labor pension fund assets, including the asset allocation and yield of the fund, please refer to the website of the Bureau of Labor Funds, Ministry of Labor.

2) Movements in present value of the defined benefit obligations

The movements in the present value of the defined benefit obligations for the years ended December 31, 2023 and 2022 are as follows:

	For the years ended December 31	
	2023	**2022**
Defined benefit obligations at January 1	$ 51,619	65,284
Current service costs and interest cost	1,144	653
Remeasurements of the net defined benefit obligations		
－Actuarial loss arising from changes in financial assumptions	299	(2,981)
－Actuarial loss arising from experience adjustments	5,939	(10,621)
Benefits paid	(1,255)	(716)
Defined benefit obligations at December 31	**$ 57,746**	**51,619**

3) Movements in fair value of plan assets

The movements in the fair value of the plan assets for the years ended December 31, 2023 and 2022 are as follows:

	For the years ended December 31	
	2023	**2022**
Fair value of plan assets at January 1	$ 20,347	18,490
Interest income	305	94
Remeasurements of the net defined benefit liabilities		
－Return on plan assets (excluding interest income)	122	1,519
Contributions paid by the employer	960	960
Benefits paid	(1,255)	(716)
Fair value of plan assets at December 31	**$ 20,479**	**20,347**

4) Expenses recognized in profit or loss

The expenses recognized in profit or loss for the years ended December 31, 2023 and 2022 are as follows:

	For the years ended December 31	
	2023	**2022**
Current service costs	$ 483	377
Net interest of net liabilities for defined benefit obligations	356	182
	$ 839	**559**

	2023	**2022**
Administration expenses	**$ 839**	**559**

5) Remeasurement of net defined benefit liability recognized in other comprehensive income

Accumulated remeasurement of the defined benefit liability recognized in other comprehensive income is as follows:

	For the years ended December 31	
	2023	**2022**
Accumulated amount at January 1	$ (6,732)	(21,853)
Recognized during the period	(6,116)	15,121
Accumulated amount at December 31	**$ (12,848)**	**(6,732)**

6) Actuarial assumptions

The principal actuarial assumptions at the reporting date were as follows:

	December 31, 2023	**December 31, 2022**
Discount rate	1.375%	1.50%
Future salary increase rate	2.00%	2.00%

The expected allocation payment to be made by the Group to the defined benefit plans for the one-year period after the reporting date of 2023 was $293 thousand.

The weighted average lifetime of the defined benefits plans was 9.50 years as of December 31, 2023.

7) Sensitivity analysis

As of December 31, 2023 and 2022, if the actuarial assumptions had changed, the impact on the present value of the defined benefit obligation are as follows:

	Influences of defined benefit obligations	
	Increase by 0.25%	**Decrease by 0.25%**
December 31, 2023		
Discount rate	(593)	617
Future salary increasing rate	599	(578)
December 31, 2022		
Discount rate	(681)	713
Future salary increasing rate	688	(661)

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions remain constant, would have affected the defined benefit obligation by the amounts shown above. The method used in the sensitivity analysis was consistent with the calculation of pension liabilities in the balance sheets.

There were no changes in the method and assumptions used in the preparation of sensitivity analysis compared with those used in the financial statements of the prior period.

(ii) Defined contribution plans

The Group allocates 6% of each employee’s monthly wages to the labor pension personal account at the Bureau of Labor Insurance in accordance with the provisions of the Labor Pension Act. Under these defined contribution plans, the Group allocates a fixed amount to the Bureau of Labor Insurance without additional legal or constructive obligation.

Foreign entities of the Group adopt defined contribution plans. The contribution of pension is made in accordance with local regulations, and the pension that shall be provided in the period is recognized as pension expenses in full.

The pension expenses incurred from the defined contribution plans amounted to $64,823 thousand and $64,147 thousand for the years ended December 31, 2023 and 2022, respectively.

(p) Income taxes

(i) Income tax expense

The components of the income tax in the years 2023 and 2022 are as follows:

	For the years ended December 31	
	2023	**2022**
Current tax expense		
Current period	$ 208,494	189,140
Underestimation of income tax in prior periods	9,245	18,356
Deferred tax expense (benefit)		
Origination and reversal of temporary differences	(15,046)	43,034
	$ 202,693	250,530

Reconciliation of income tax expenses and the profit before income tax for the years ended December 31, 2023 and 2022 is as follows:

	For the years ended December 31	
	2023	**2022**
Profit before income tax	$ 737,971	724,498
Income tax using the Company’s domestic tax rate	$ 147,594	144,900
Tax effect of different tax rates applicable in foreign jurisdiction	52,538	35,118
Recognition of prior unrecognized tax losses	69	4,595
Tax incentive	-	(15,042)
Undistributed earnings additional tax	8,504	-
Underestimation of income tax in prior periods	9,245	18,356
Others	(15,257)	62,603
	$ 202,693	250,530

(ii) Deferred tax assets and liabilities

Changes in the amount of deferred tax assets and liabilities for the years ended December 31, 2023 and 2022 are as follows:

	Inventory valuation losses	Others	Total
Deferred tax assets:			
Balance at January 1, 2023	$ 17,217	12,573	29,790
Recognized in profit or loss	(1,404)	16,343	14,939
Balance at December 31, 2023	$ 15,813	28,916	44,729
Balance at January 1, 2022	$ 16,588	23,041	39,629
Recognized in profit or loss	629	(10,468)	(9,839)
Balance at December 31, 2022	$ 17,217	12,573	29,790

	Share of profit or loss of subsidiaries accounted for using equity method and others
Deferred tax liabilities:	
Balance at January 1, 2023	$ 181,549
Recognized in profit or loss	(107)
Balance at December 31, 2023	$ 181,442
Balance at January 1, 2022	$ 148,354
Recognized in profit or loss	33,195
Balance at December 31, 2022	$ 181,549

The Group has resolved by the board of directors in March, 2023 that since 2023, as the Group is able to control the time point of the reversal of the temporary differences arising from investments in subsidiaries in Mainland China (including unappropriated earnings, etc.), and it is probable that the temporary differences will not reverse in the foreseeable future, deferred income tax assets and liabilities are not recognized.

(iii) Assessment of tax

The Company tax returns for the years through 2021 were assessed by the National Taiwan Bureau.

(r) Capital and other equity

As of December 31, 2023 and 2022, the number of authorized ordinary share each consisted were $1,200,000 and $1,000,000, respectively. In addition, the issuance of ordinary shares each consisted of 64,815 thousand and 60,121 thousand of shares, respectively, with a par value of $10 per share.

(Continued)

Reconciliation of the numbers of outstanding shares as of December 31, 2023 and 2022 is as follows:

	Ordinary shares	
	For the years ended December 31	
(Expressed in thousands of shares)	2023	2022
Beginning balance	60,121	60,121
Conversion of convertible bonds	4,694	-
Ending balance	64,815	60,121

(i) Ordinary shares

The Company issued 5,970 thousand of new shares at par with total amount of $59,700 thousand for the conversion by convertible bonds holders for the year ended December 31, 2023. Among the new shares, the legal registration process of 4,694 thousand of shares (with total amount of $46,939 thousand) has been completed, and the rest 1,276 thousand of shares (with total amount of $12,761 thousand) have been listed under “advance receipts for share capital,” and the legal registration process has been completed on February 27, 2024.

(ii) Capital surplus

The balances of capital surplus are as follows:

	December 31, 2023	December 31, 2022
Additional paid-in capital	$ 1,694,899	1,314,010
Treasury share transactions	6,195	6,195
Employee share options (including those ceased to be effective)	14,329	14,329
Issuance of convertible bond options	-	50,911
Total	$ 1,715,423	1,385,445

According to the regulation of the Company Act, where a company incurs no loss, it may distribute the income derived from the issuance of new shares at a premium, and the income from endowments received by the Company, by issuing new shares which shall be distributable as dividend shares to its original shareholders in proportion to the number of shares being held by each of them or by cash. Based on the relevant regulations of Securities and Exchange Act, where a company intends to capitalize the aforementioned capital surplus, the total amount per year shall not exceed 10% of paid-in capital.

(iii) Retained earnings

The Company’s article of incorporation stipulate that any Company’s net earnings should first be used to offset the prior years’ deficits, before paying any income taxes. Then 10% of the remaining balance is to be appropriated as legal reserve, unless such legal reserve has amounted to the paid-in capital. The remainder, if any, should be set aside as special reserve in accordance with the operating requirement and the laws, together with any undistributed

(Continued)

retained earnings that can be distributed up to 90% of the shareholder dividend after the board of directors has made the proposal of earnings distribution, wherein the distributable dividend and bonus may be paid by issuing new shares after a resolution has been adopted in the shareholders' meeting.

When the Company allocates special reserve in accordance with law, it shall be allocated from the cumulative net amount of other deductions from equity in the preceding period and the cumulative net amount of increase in investment property fair value in the preceding period. If it is insufficient to make the allocation mentioned above, before earnings distribution, the Company shall allocate an amount of special reserve equal to the amount allocated to undistributed earnings for the preceding period. If there remains any insufficiency, allocate it from the amount of the after-tax net profit for the period, plus items other than after-tax net profit for the period, that are included in the undistributed earnings of the period.

According to Article 240, paragraphs 5 of Company Act, the distributable dividends and bonus, in whole or in part, or the legal reserve and capital reserved, in whole or in part, which are brought in Article 241, paragraphs 1 of Company Act, may be paid in cash after a resolution has been adopted by a majority vote at a meeting of the board of directors attended by two-thirds of the total number of directors, and in addition thereto, a report of such distribution shall be submitted to the shareholders' meeting.

Before the distribution of dividends, the Company shall first take into consideration its operating environment, industry developments, and the long-term interests of stockholders, as well as its programs to maintain operating efficiency and meet its capital expenditure budget and financial goals in determining the stock or cash dividends to be paid. After the above appropriations, the current and prior-period earnings that remain undistributed will be proposed for distribution by the board of directors to be approved during the meeting of the shareholders. The cash dividends shall not be more than 10% of total dividends.

1) Legal reserve

When a company incurs no loss, it may, pursuant to a resolution by a shareholders' meeting, distribute its legal reserve by issuing new shares or by distributing fund, and only the portion of legal reserve which exceeds 25% of capital may be distributed.

2) Special reserve

According to the FSC, a portion of current-period earnings and undistributed prior-period earnings shall be reclassified as special earnings reserve during earnings distribution. The amount to be reclassified should equal the current-period total net reduction of other shareholders' equity. Similarly, a portion of undistributed prior-period earnings shall be reclassified as special earnings reserve (and does not qualify for earnings distribution) to account for cumulative changes to other shareholders' equity pertaining to prior periods. Amounts of subsequent reversals pertaining to the net reduction of other shareholders' equity shall qualify for additional distributions.

3) Earnings distribution

The amounts of cash dividends on the appropriations of earnings for 2022 and 2021 had been approved during the board meetings on March 13, 2023 and May 11, 2022, respectively.

(Continued)

The relevant dividend distributions to shareholders were as follows:

	2022		2021	
	Amount per share	**Total amount**	**Amount per share**	**Total amount**
Dividends distributed to ordinary shareholders				
Cash	$ 3.00	**180,364**	2.00	**120,243**

(iv) Other equity

	Exchange differences on translation of foreign financial statements	**Unrealized gain (losses) from financial assets measured at fair value through other comprehensive income**	**Total**
Balance at January 1, 2023	$ (58,328)	11,149	(47,179)
Exchange differences on foreign operations	(69,777)	-	(69,777)
Unrealized losses from financial assets measures at fair value through other comprehensive income:			
The Company	-	15,722	15,722

(u) Remuneration to employees, and directors

The Group’s articles of incorporation, which were authorized by the board of directors but has yet to be approved by the shareholders, require that earnings shall first be offset against any deficit, then, a minimum of 2% will be distributed as employee remuneration, and a maximum of 2% will be allocated as remuneration to directors. Employees who are entitled to receive the abovementioned employee remuneration, in share or cash, include the employees of the Group's subsidiaries who meet certain specific requirements.

For the years ended December 31, 2023 and 2022, the Group accrued and recognized its employee remuneration amounting to $47,162 thousand and $50,996 thousand, respectively; as well as its remuneration to directors amounting to $11,791 thousand and $12,749 thousand, respectively. These amounts were calculated by using the Company’s pre-tax net profit for the period before deducting the amounts of the remuneration to employees and directors, multiplied by the distribution of ratio of the remuneration to employees and directors based on the Company's articles of incorporation, and expensed under operating costs or expenses. Related information would be available at the Market Observation Post System website. The amounts, as stated in the financial statements are identical to those of the actual distributions for 2023 and 2022.

The details of interest income are as follows:

	For the years ended December 31	
	2023	**2022**
Interest income from bank deposits	$ 54,309	23,880
Other interest income	697	193
	$ 55,006	**24,073**

(w) Financial instruments

(i) Credit risk

1) Credit risk exposure

The carrying amount of financial assets and contract assets represents the maximum amount exposed to credit risk.

2) Concentration of credit risk

The major customers of the Group are centralized in the high-tech computer industry. As of December 31, 2023 and 2022, 50% and 33%, respectively, of accounts receivable were concentrated on 5 and 4 major customers, respectively. To minimize credit risk, the Group periodically evaluates the Group's financial positions and the possibility of collecting accounts receivables.

3) Credit risk of receivables

For credit risk exposure of note and accounts receivables, please refer to note 6(c).

Other financial assets at amortized cost include other receivables. For the details on the provision of loss allowances, please refer to note 6(d).

As all of these financial assets are considered with low risk, and thus, the loss allowances are measured at the amount equal to 12-month expected credit losses.

(ii) Liquidity risk

The following table shows the contractual maturities of financial liabilities, including the effects of estimated interests.

	Carrying amount	Contractual cash flow	within six months	6-12 months	1-2 years	2-5 years	over 5 years
December 31, 2023							
Non derivative financial liabilities							
Short-term borrowings	$ 629,810	632,321	632,321	-	-	-	-
Notes and accounts payable	2,431,380	2,431,380	2,431,380	-	-	-	-
Other payables	1,157,079	1,157,079	1,157,079	-	-	-	-
Lease liabilities	94,505	107,044	22,430	17,938	32,445	34,231	-
Long-term borrowings							
(current portion included)	254,921	258,827	109,951	78,071	14,719	43,183	12,903
	$ 4,567,695	4,586,651	4,353,161	96,009	47,164	77,414	12,903
December 31, 2022							
Non derivative financial liabilities							
Short-term borrowings	$ 515,833	522,908	482,113	40,795	-	-	-
Notes and accounts payable	1,573,815	1,573,815	1,573,815	-	-	-	-
Other payables	1,113,971	1,113,971	1,113,971	-	-	-	-
Bond payables	386,421	400,000	-	-	-	400,000	-
Lease liabilities	109,053	119,727	20,859	20,491	34,353	44,024	-
Long-term borrowings							
(current portion included)	472,282	480,722	110,979	110,397	187,793	44,301	27,252
	$ 4,171,375	4,211,143	3,301,737	171,683	222,146	488,325	27,252

The Group does not expect the cash flows included in the maturity analysis to occur significantly earlier or at significantly different amounts.

(iii) Currency risk

1) Exposure to foreign currency risk

The Group's significant exposure to foreign currency risk was as follows:

	December 31, 2023			December 31, 2022		
	Foreign currency	Exchange rate	New Taiwan Dollars	Foreign currency	Exchange rate	New Taiwan Dollars
Financial assets						
Monetary items						
USD	$ 91,329	30.705	2,804,257	100,132	30.710	3,075,065
Financial liabilities						
Monetary items						
USD	32,492	30.705	997,667	47,198	30.710	1,449,458

2) Sensitivity analysis

The Group's exposure to foreign currency risk arises from the conversion of the foreign currency exchange gains and losses on cash and cash equivalents, accounts and other receivables, loans and borrowings, and accounts and other payables that are denominated in foreign currency. Assuming all other variable factors remain constant, a weakening or strengthening of 5% of the NTD against the USD as of December 31, 2023 and 2022 would have increased or decreased the net profit before tax by $90,330 thousand and $81,280 thousand, respectively. The analysis for the two periods were on the same basis.

3) Foreign exchange gain and loss on monetary items

Since the Group transacts in different functional currencies, the information on foreign exchange gains (losses) on monetary items is disclosed by total amount. For the years ended December 31, 2023 and 2022, the foreign exchange gain (loss) (including realized and unrealized portions) amounted to $27,760 thousand and $190,014 thousand, respectively.

(iv) Interest rate analysis

Please refer to the notes on liquidity risk management and interest rate exposure of the Group's financial assets and liabilities.

The following sensitivity analysis is based on the exposure to the interest rate risk of derivative and non-derivative financial instruments on the reporting date. Regarding liabilities with floating interest rates, the analysis is based on the assumption that the amount of liabilities outstanding at the reporting date was outstanding throughout the year. The rate of change is expressed as the interest rate increases or decreases by 1% when reporting to the management internally, which also represents the Group management's assessment of the reasonably possible interest rate change.

If the interest rate had increased or decreased by 1% basis points, the Group's net income would have decreased or increased by $8,847 thousand and $9,881 thousand for the years ended December 31, 2023 and 2022, assuming all other variable factors remain constant. This is mainly due to the Group's borrowing in floating variable rates.

(v) Other price risk

If the price of securities changes at the reporting date (the analysis was performed on the same basis for both periods, and assuming that other factors remained unchanged), the impact on the comprehensive income was as follows:

Security price at the report date	2023 After-tax amount of other comprehensive income	2023 Pre-tax profit or loss	2022 After-tax amount of other comprehensive income	2022 Pre-tax profit or loss
Rise by 1%	**$ 1,222**	**154**	**830**	**192**
Fall by 1%	**$ (1,222)**	**(154)**	**(830)**	**(192)**

(vi) Fair value of financial instruments

1) Types of financial instruments and fair value

The carrying amount and fair value of the Group's financial assets and liabilities are as follows (including the information on fair value hierarchy; however, for financial instruments not measured at fair value whose carrying amount is reasonably close to the fair value, and for equity investments that has no quoted prices in the active markets and whose fair value cannot be reliably measured, disclosure of fair value information is not required):

	December 31, 2023				
		Fair value			
	Carrying amount	**Level 1**	**Level 2**	**Level 3**	**Total**
Financial assets at fair value through profit or loss	$ 15,640	15,386	-	254	15,640
Financial assets at fair value through other comprehensive income	122,164	-	-	122,164	122,164
Loans and receivables					
Cash and cash equivalents	2,967,196	-	-	-	-
Notes and accounts receivable	3,018,798	-	-	-	-
Other receivables	37,930	-	-	-	-
Subtotal	6,023,924	-	-	-	-
Total	**$ 6,161,728**	**15,386**	**-**	**122,418**	**137,804**
Financial liabilities at amortized cost:					
Short-term borrowings	$ 629,810	-	-	-	-
Notes and accounts payables	2,431,380	-	-	-	-
Other payables	1,157,079	-	-	-	-
Lease liabilities	94,505	-	-	-	-
Long-term borrowings (current portion included)	254,921	-	-	-	-
Subtotal	4,567,695	-	-	-	-
Total	**$ 4,567,695**	**-**	**-**	**-**	**-**

(Continued)

	December 31, 2022				
		Fair value			
	Carrying amount	Level 1	Level 2	Level 3	Total
Financial assets at fair value through profit or loss	$ 29,812	29,155	200	457	29,812
Financial assets at fair value through other comprehensive income	83,032	-	-	83,032	83,032
Loans and receivables					
Cash and cash equivalents	2,841,048	-	-	-	-
Notes and accounts receivable	2,395,310	-	-	-	-
Other receivables	46,109	-	-	-	-
Subtotal	5,282,467	-	-	-	-
Total	$ 5,395,311	29,155	200	83,489	112,844
Financial liabilities at amortized cost					
Short-term borrowings	$ 515,833	-	-	-	-
Notes and accounts payable	1,573,815	-	-	-	-
Other payables	1,113,971	-	-	-	-
Bond payables	386,421	-	-	-	-
Lease liabilities	109,053	-	-	-	-
Long-term borrowings (current portion included)	472,282	-	-	-	-
Total	$ 4,171,375	-	-	-	-

2) Valuation techniques for financial instruments not measured at fair value

The methods and assumptions used for estimating the instruments not measured at fair value are as follows:

(2.1) Financial assets at amortized cost

If public quoted prices in active markets are available, the market prices are the fair value. If there is no market price for reference, the fair value shall be estimated by valuation method or the counterparty prices.

(2.2) Financial assets and liabilities at amortized cost

If quoted prices of deals or market makers are available, fair value shall be evaluated on the basis of the recent deal prices or quoted prices. If there is no market price for reference, fair value shall be estimated by valuation method. The estimates and assumptions used in the valuation method are estimating fair value by the discounted cash flows.

3) Valuation techniques for financial instruments measured at fair value

(3.1) non-derivative financial instruments

(Continued)

If there are public quoted prices in an active market for a financial instrument, the public quoted prices are the fair value of the financial instrument.

The market prices in major exchanges, and the market prices of hot bonds declared by central government bond OTC center are the basis of listed equity instruments and debt instruments with market public quoted prices in active markets.

A financial instrument is regarded as being quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry Group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's-length basis. If the aforementioned conditions do not conform, then the market is regarded as inactive. In general, a market with high bid-ask spreads, significant increase in bid-ask spreads, or low trading volume is indicated as inactive.

Unquoted equity instruments: the fair value shall be estimated by discounted cash flow model, which is assumed on the investors' expected future cash flows that are discounted by the rate of return reflecting time value of money and investment risk.

(3.2) Derivatives

Valuations are based on valuation models widely accepted by market users, such as discounting methods and option pricing models. Forward exchange agreements are usually valued based on the current forward rate. Structured interest rate derivatives are based on an appropriate option pricing model (such as the Black-Scholes model) or other evaluation methods, such as Monte Carlo simulation.

4) Details of changes in level 3 fair value measurement

	Measured at fair value through profit or loss	**Measured at fair value through other comprehensive income**
Balance at January 1, 2023	$ 457	83,032
Total gains or losses		
Recognized in profit or loss	(203)	-
Recognized in other comprehensive income	-	15,645
Additions	-	34,111
Refund of paid-up capital due to capital decrease	-	(10,150)
Effect of movements in exchange	-	(474)
Balance at December 31, 2023	**$ 254**	**122,164**

		Measured at fair value through profit or loss	Measured at fair value through other comprehensive income
Balance at January 1, 2022	$	31,972	90,631
Total gains or losses			
Recognized in profit or loss		(1,107)	-
Recognized in other comprehensive income		-	(7,973)
Additions		1,540,155	-
Disposals		(1,571,011)	-
Effect of movements in exchange		448	374
Balance at December 31, 2022	**$**	**457**	**83,032**

The aforementioned total gains or losses were presented under “other gains and losses” and “unrealized gains (losses) from investments in equity instruments measured at fair value through other comprehensive income.” The portion related to the assets held by the Group as of December 31, 2023 and 2022 is as follows:

		For the year ended December 31, 2023	For the year ended December 31, 2022
Total gains or losses			
Recognized in profit or loss (presented under “other gains and losses”)	$	(203)	(1,107)
Recognized in other comprehensive income (presented under “unrealized gains (losses) from investments in equity instruments measured at fair value through other comprehensive income”)		15,645	(7,973)

5) Quantified information on significant unobservable inputs (Level 3) used in fair value measurement

The Group's financial instruments classified as Level 3 fair value measurements primarily consist of "financial assets measured at fair value through profit or loss - equity investments."

The majority of fair value measurements of the Group are classified as Level 3 are with only single significant unobservable input. Only equity investments without active markets are with multiple significant unobservable input. As the significant unobservable inputs are independent with each other, there is no interrelationship among them.

Quantified information of significant unobservable inputs was as follows:

Item	Valuation technique	Significant unobservable inputs	Inter-relationship between significant unobservable inputs and fair value measurement
Financial assets at fair value through other comprehensive income - equity investments without an active market	Net Asset Value Method	· Net asset value · The market illiquidity discount rate (30% on December 31, 2023 and 2022)	· The higher market illiquidity discount, the lower fair value
Financial assets at fair value through profit or loss-Private offered funds	Net Asset Value Method	- Net asset value	Not applicable

6) Fair value measurements in Level 3 — sensitivity analysis of reasonably possible alternative assumptions

The fair value measurement of financial instruments by the Group is reasonable, but the use of different evaluation models or evaluation parameters may result in different evaluation results. For fair value measurements in Level 3, if the evaluation parameters change, would have the following effects of profit or loss or other comprehensive income:

			Profit or loss		Other comprehensive income	
	Input	**Assumptions**	**Favorable**	**Unfavorable**	**Favorable**	**Unfavorable**
December 31, 2023						
Financial assets at fair value through profit or loss-Private offered funds	Net asset value	5%	13	(13)	-	-
Financial assets at fair value through other comprehensive income						
Equity investments without an active market	30%	5%	-	-	6,108	(6,108)
December 31, 2022						
Financial assets at fair value through profit or loss-Private offered funds	Net asset value	5%	33	(33)	-	-
Financial assets at fair value through other comprehensive income						
Equity investments without an active market	30%	5%	-	-	4,152	(4,152)

The favorable and unfavorable effects represent the changes in fair value, and fair value is based on a variety of unobservable inputs calculated using a valuation technique. The analysis above only reflects the effects of changes in a single input, and it does not include the interrelationships with another input.

(x) Financial risk management

(i) Overview

The Group has exposures to the following risks from its financial instruments:

1) Credit risk

2) Liquidity risk

3) Market risk

The following likewise discusses the Group's objectives, policies and processes for measuring and managing the abovementioned risks. For more disclosures about the quantitative effects of these risk exposures, please refer to the respective notes in the accompanying financial statements.

(ii) Risk management framework

The Group oversees how the managements supervision is in compliance with the Group's risk management policies and procedures. The general manager is responsible for developing and monitoring the Group's risk management policies and reviews the adequacy of the risk management framework in relation to the risks faced by the Group. The Group is assisted in its oversight role by Internal Audit. Internal Audit undertakes both regular and ad hoc reviews of risk management controls and procedures.

(iii) Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers and investments in securities.

1) Accounts and other receivables

The Group has established a credit policy under which each new customer is analyzed individually for creditworthiness before the Group's standard payment and delivery terms and conditions are offered.

The credit risk exposure is affected by the individual conditions of each customer. However, the management also considers the basic statistic data of customers, including the industries that the customers operate in, and the default risk of the countries, because those factors may affect credit risk. In order to reduce the credit risk, the Group also regularly assesses the financial statues of its customers, if necessary, and will require its customers to provide security or guarantee.

The Group sets allowance for doubtful accounts to reflect the estimated loss resulted from its accounts and notes receivable. The main portion of allowance for doubtful accounts included specific loss component related to significant exposure and loss component occurred but not recognized on similar group of assets. The allowance for doubtful accounts of the group was based on the statistic information of past payment of similar financial assets.

2) Investments

The exposure to credit risk for the bank deposits, fixed income investments, and other financial instruments is measured and monitored by the Group's finance department. As the Group only deals with banks with good credit rating, there is no concern about performance of contracts. Therefore, there is no significant credit risk.

3) Guarantees

As of December 31, 2023 and 2022, the Group did not provide endorsements and guarantees.

(iv) Liquidity risk

The Group manages sufficient cash and cash equivalents so as to cope with its operations and mitigate the effects of fluctuations in cash flows. The Group's management supervises the banking facilities to ensure consistency with the terms of loan agreements.

Loans and borrowings from the bank form an important source of liquidity for the Group. As of December 31, 2023 and 2022, the Group's long-term and short-term unused credit line amounted to $518,280 thousand and $1,450,215 thousand, respectively.

(v) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates, and equity prices that will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

1) Currency risk

The Group is exposed to currency risk on sales, purchases, and borrowings that are denominated in a currency other than the respective functional currencies of the Group's entities. The functional currencies of the entities in the Group are primarily NTD, and also USD and CNY. The transactions are primarily denominated in NTD, USD, and CNY.

Interests arising from borrowings are denominated in the currencies of the principal of the borrowings. Generally, the currencies of the borrowings are the same as the currencies of the cash flows generated by the operation of the Group, primarily NTD and USD. Under this condition, as economic hedging is provided, derivative instruments shall not be used. Therefore, hedge accounting is not used.

As for other monetary assets and liabilities denominated in other foreign currencies, when there are short-term unbalances, the Group ensure the net exposure to keep on an acceptable level by purchasing or selling foreign currencies by spot exchange rates.

2) Interest rate risk

The Group maintains an appropriate combination of the fixed and floating interest rate instruments to manage interest rate risk

(y) Capital management

The board of directors' policies are maintaining sound capital base, to maintain the confidence of investors, creditors, and the market, and to support the development of future operation. The capital includes share capital, capital surplus, retained earnings, and non-controlling interests. The board of directors manages the level of dividends of ordinary shares.

The Group's debt-to-equity ratios as of December 31, 2023 and 2022 are as follows:

	December 31, 2023	December 31, 2022
Total liabilities	$ 4,893,384	4,474,281
Less: cash and cash equivalents	(2,967,196)	(2,841,048)
Net liabilities	**$ 1,926,188**	**1,633,233**
Total equity	**$ 5,262,895**	**4,578,551**
Debt-to-equity ratio	**36.60%**	**35.67%**

.

(z) Investment and financing activities from non-cash transactions

Investment and financing activities from non-cash transactions for the years ended December 31, 2023 and 2022 are as follows:

(a) Right-of-use assets acquired through leasing, please refer to Note 6(h).

(b) Reconciliation of assets from financing activities is as follows:

	Jan. 1, 2023	Cash Flows	Non-cash changes Acquisition	Exchange rate	Interest expenses	Others	December 31, 2023
Short-term borrowings	$ 515,833	121,287	-	(7,310)	-	-	629,810
Long-term borrowings (current portion included)	472,282	(217,361)	-	-	-	-	254,921
Bonds payables	386,421	-	-	-	3,846	(390,267)	-
Lease liabilities	109,053	(45,304)	32,265	(2,018)	-	509	94,505
Total liabilities arising from financing activities	$ 1,483,589	(141,378)	32,265	(9,328)	3,846	(389,758)	979,236

	Jan. 1, 2022	Cash Flows	Non-cash changes Acquisition	Exchange rate	Interest expenses	Others	December 31, 2022
Short-term borrowings	$ 652,614	(208,844)	-	72,063	-	-	515,833
Long-term borrowings (current portion included)	647,393	(175,111)	-	-	-	-	472,282
Bonds payables	-	436,932	-	-	-	(50,511)	386,421
Lease liabilities	39,977	(52,302)	102,156	17,603	-	1,619	109,053
Total liabilities arising from financing activities	$ 1,339,984	675	102,156	89,666	-	(48,892)	1,483,589

(7) Related-party transactions:

Key management personnel compensation comprised:

	For the years ended December 31 2023	2022
Short-term employee benefits	$ 29,977	27,011
Post-employment benefits	859	797
	$ 30,836	27,808

(8) Pledged assets:

The carrying values of pledged assets were as follows:

Pledged assets	Object	December 31, 2023	December 31, 2022
Land	Secured loans	$ 1,016,281	1,016,281
Buildings	Secured loans	226,692	233,691
		$ 1,242,973	1,249,972

(9) Commitments and contingencies:

The Group's significant contractual commitments were as follows:

	December 31, 2023	December 31, 2022
Acquisition of property, plant and equipment	$ 86,249	81,306

(10) Losses Due to Major Disasters: None

(11) Subsequent Events:

(a) The Company has resolved by the board of directors on November 10, 2023 to merge Jarson Precision Technology Co., Ltd. (Jarson Precision) by a short-form merger. The based date of the combination is January 1, 2024. After the combination, the Company is the surviving company, and Jarson Precision is the dissolved company, and the Company generally assumes all rights and obligations of Jarson Precision.

(b) The Company issued 8,000 units of the second domestic unsecured convertible bonds with three years of duration at 0% of coupon rate on January 8, 2024. The principal amounted to $800,000 thousand.

(c) The Company resolved to change the investment structure of Zhejiang Jarlly Precision Technology Co., Ltd. by the board of directors on January 24, 2024. Jarlly Technology (Shanghai) Co., Ltd. acquired 100% of the shares of Zhejiang Jarlly Precision Technology Co., Ltd from Royal Jarlly Holding Ltd. The based date is February 1, 2024. As of the date the financial statements are authorized for issuance, the legal registration procedures have not been completed.

(12) Other:

The employee benefits, depreciation, and amortization expenses categorized by function, were as follows:

By function / By item	2023			2022		
	Operating cost	Operating expenses	Total	Operating cost	Operating expenses	Total
Employee benefits						
Salaries	835,552	402,631	1,238,183	740,552	377,532	1,118,084
Labor and health insurance	48,260	23,658	71,918	47,332	22,962	70,294
Pension	47,724	17,938	65,662	47,102	17,604	64,706
Remuneration of directors	-	13,347	13,347	-	14,108	14,108
Others	43,790	17,242	61,032	41,775	15,599	57,374
Depreciation	265,600	52,887	318,487	257,801	41,363	299,164
Amortization	9,491	19,893	29,384	7,718	16,406	24,124

(13) Other disclosures:

(a) Information on significant transactions:

The following is the information on significant transactions required by the “Regulations Governing the Preparation of Financial Reports by Securities Issuers” for the Group:

(i) Loans to other parties:

Number	Name of lender	Name of borrower	Account name	Related party	Highest balance of financing to other parties during the period	Ending balance	Actual usage amount during the period	Range of interest rates during the period	Nature of financing (Note 3)	Transaction amount for business between two parties	Reasons for short-term financing	Allowance for bad debt	Collateral Item	Collateral Value	Individual funding loan limits (Note 1 & 2)	Maximum limit of fund financing (Note 1 & 2)
0	The Company	Jarson Precision Technology Co., Ltd.	Other receivables	Yes	40,000	20,000	20,000 (Note 4)	2%	2	-	Operating turnover	-		-	701,719	2,105,158

(1) Direct investment from Mainland China

(2) Indirect investment from third-party country

(3) Others

Note 2: The recognition of gain and loss on investment based on the financial report which was assured by R.O.C. Accountant.

Note 3: The amount was eliminated in the consolidated financial statements.

(ii) Limitation on investment in Mainland China:

Accumulated Investment in Mainland China as of December 31, 2023	Investment Amounts Authorized by Investment Commission, MOEA	Upper Limit on Investment
904,601	1,272,231	3,157,737
(USD28,434)	(USD41,434)	

(iii) Significant transactions:

The significant inter-company transactions with the subsidiary in Mainland China, which were eliminated in the preparation of financial statements, are disclosed in "Information on significant transactions".

(d) Major shareholders:

Shareholding / Shareholder's Name	Shares	Percentage
Sunrise Investment Co., Ltd.	6,100,000	9.22%
Dellson Investment Co., Ltd.	3,864,000	5.84%

Note:1. The information on major shareholders, which is provided by Taiwan Depositor & Clearing Corporation, summarized the shareholders who held over 5% of total non-physical common stocks and preferred stocks (including treasury stocks) on the last business date of each quarter. The registered non-physical stocks may be different from the capital stocks disclosed in the financial statement due to different calculation basis.

2. If shares are entrusted, the above information regarding such shares will be revealed by each trustor of individual trust account. The shareholders holding more than 10%of the total shares of the company should declare insider's equity according to Securities and Exchange Act. The numbers if the shares declared by the insider include the shares of the trust assets which the insiders has discretion over use. For details of the insider's equity announcement please refer to the TWSE website.

(14) Segment information:

(a) Information on profit or loss of reportable segments, segment assets, segment liabilities, and the basis for measurement and reconciliation

The Group uses the profit or loss before tax of segments (excluding extraordinary gains and losses and exchange gains and losses) in the internal management report reviewed by the chief operating decision maker as the basis for the management to allocate resources and assess performance. As income tax, extraordinary gains and losses, and exchange gains and losses are managed on the basis of the Group, the Group allocate income tax expenses (benefits), extraordinary gains and losses, and exchange gains and losses to reportable segments. In addition, not all the profit or loss of reportable segments include significant non-cash items other than depreciation and amortization. The reported amounts are the same as those in the report used by the chief operating decision maker.

The accounting policies of operating segments are the same as those explained in Note 4 "Explanation of significant accounts."

The Group’s operating segment information and reconciliation were as follows:

	For the year ended December 31, 2023			
	Segment hinge	**Segment fiber optic**	**Reconciliation and elimination**	**Total**
Revenue				
Revenue from external customers	$ 8,010,734	209,929	-	8,220,663
Intersegment revenues	-	-	-	-
Total revenue	$ 8,010,734	209,929	-	8,220,663
Reportable segment profit or loss	**$ 715,387**	**22,584**	**-**	**737,971**

	For the year ended December 31, 2022			
	Segment hinge	**Segment fiber optic**	**Reconciliation and elimination**	**Total**
Revenue				
Revenue from external customers	$ 6,742,953	277,655	-	7,020,608
Intersegment revenues	-	-	-	-
Total revenue	$ 6,742,953	277,655	-	7,020,608
Reportable segment profit or loss	**$ 678,460**	**46,038**	**-**	**724,498**

Note: The amounts of intersegment assets were not provided to the Group, thus, there were no disclosed amounts.

(a) Product and service information

Revenue from the external customers of the Group was as follows:

Product and service	**For the years ended December 31, 2023**	**2022**
Hinge	$ 8,010,734	6,742,953
Fiber optic	209,929	277,655
Total	$ 8,220,663	7,020,608

(b) Geographic information

In presenting information on the basis of geography, segment revenue was based on the geographical location of customers, while segment assets were based on the geographical location of the assets.

Geographical information	For the years ended December 31, 2023	2022
Revenue from external customers:
